"St. Johns can well feel proud of its fire department and equipment," so says a resident of University Park. And he adds: "Would that we were a part of St. Johns instead of the city of Portland, so that we could get something, too. As it is we get nothing but high taxes."

This is a funny world, full of men of many minds. While some are preaching safety first, along comes a fellow with a one-piece suit for males, which is to be suspended by a single button. Looks like a case of flying in the face of Fate. Certainly a grave responsibility would rest upon that button.
Farmer Smith, of the O.W.R. & N.Co., returning from an inspection trip through Eastern Oregon, states that the grain yield for this state has been considerably under-estimated, and that in most cases the wheat is turning out much better than expected. He states that farmers who planted acclimated corn are meeting with great success and the growth of this crop is unusually good.

A Portland man offers the suggestion that since the city of St. Johns is considering the advisability of selling its city dock that it offer to sell the same to the city of Portland, as that city seems to be in the market for suitable dock propositions. In this way St. Johns might sell the dock, and yet keep it, since annexation is only a matter of time. This suggestion, if feasible, would at least prove whether or not the city of Portland really wanted or would have used for a dock located in St. Johns.

It is planned to run the cannery on a co-operative basis, a plan which has been found successful in other localities, and it is believed that its establishment will result in the cultivation of hundreds of acres in Powell Valley now idle.

Extract from a seashore letter: A pretty seashore romance has been taking place here the past couple of weeks, with probability of wedding bells in the near future, in which a popular young man of St. Johns and one of Portland's handsomest young women are involved. The two have been in each other's company almost constantly—clam seeking, bathing, boat riding, etc. Unless I make a very bad guess, a young bachelor of St. Johns will have become a benedict before "snow flies" again.

Bredeen seventeen years ago, and from this union eight children were born. They came to Oregon ten years ago and made their home in St. Johns. Lafferty as an independent candidate for Congress in the third congressional district was filed with Secretary of State Olcott May 27th, and it was stated that it was in due form and appeared to be sufficient in every way.
